- Clubs to take steps to adequately clean and disinfect player facilities (once available) before and after use.
- Clubs must do all they can to reinforce the above precautions, including making appropriate hand washing facilities available, as well as the provision of alcohol-based hand sanitiser and tissues.
- Medical officials must follow protocols as outlined in infection control training (ie: disposal of gloves in between treatments, wearing of face masks).

#### **ADDITIONAL GAME & TRAINING HYGIENE**

#### "HOT SPOTS" aka PUBLIC EXPOSURE SITES

• A player/official member must not join the training or playing environment if in the last 14 days they have been unwell or had contact with a known or suspected case of COVID-19.

• Any player/official member who has underlying health conditions or is considered a vulnerable person should consult with a healthcare professional prior to returning to the training or match day environment. Refer to *Vulnerable Cohorts* section below.

#### **OFFICIALS – UMPIRES AND SCORERS**

Umpires, scorers and game day officials will follow the same protocols as players detailed in the Return to Activity when competition resumes. Baseball Victoria will be working with the Baseball Umpires Association of Victoria to ensure umpires are ready to commence a Return to Play.

#### **VULNERABLE COHORTS**

Based on currently available information and clinical expertise, older adults and people of any age who have serious underlying medical conditions might be at higher risk for severe illness from COVID-19. As part of the Return to Activity with training in small groups, there will be limited coach interaction and no officials (umpires or scorers) permitted to be present. For the Return to Play, any person who is over 65 years of age or with underlying medical conditions would be required to continue to follow current social distancing requirements, and when needed, additional measures will be put into place to ensure those distancing requirements can be achieved.
