## OVERVIEW OF THE 'BEHIND THE MASK' PROGRAM

The Behind the Mask Umpire Program seeks to promote a basic training and development program for beginner umpires. It aims to teach the fundamentals of umpiring, enhance the development of umpires, and identify candidates to undertake the progression of umpiring development and accreditation to higher levels of umpiring. The program seeks to promote the role of umpiring to beginners looking to get involved with umpiring.

If you require any additional information on umpiring in Victoria, please refer to the [Umpiring](#) section on the Baseball Victoria website.

## PURPOSE

The purpose of this program is to create a framework that supports and develops the beginner to association umpires, providing the tools to support them both on and off the diamond.

This program has a three-pronged strategy:

1. To inform beginner umpires about the basics needed to umpire a game of baseball,
2. To inform clubs about how best to encourage, protect and educate beginner umpires, and
3. To inform umpires of the process toward further Accreditation – Community and Association

## ROLE OF THE UMPIRE

The role of the umpire varies considerably depending on the level at which he or she is officiating. However generally speaking, most umpires would have three common aims in relation to their participant players:

1. To ensure a safe environment for the game
2. To encourage the involvement of all players and
3. To make the sport enjoyable

Umpires should aim to improve the quality of the baseball experience for each participant by;

- being able to impartially make sound and reasonable decisions that display fairness.
- displaying sound communication skills in dealing with both players and their coaches
- performing their role in a manner that earns the respect of players, fostering healthy and positive attitudes toward umpires and the game of baseball
- ensuring a safe environment for all providing good game management
- not dictating but taking charge and effectively manage the game
- being able to project yourself with your knowledge, and fair and impartial decisions
